

Who is Reliance Petroleum?

Reliance Petroleum is the face of BP in regional Australia with a network of depots and service stations in Qld, NSW, Victoria, Tasmania and Western Australia. As Australia's largest BP fuel and lubricants distributor, we are committed to providing strong local representation and great customer service.

As a member of the local community, we understand the issues effecting rural and regional Australia and are proud to support a broad range of partner organisations.

What is Reliance On-Site?

Reliance On-Site is refuelling on your work site anytime, anywhere. You do not need to worry about bulk fuel storage and the difficulties associated with self-fuelling your own vehicles and machinery.

Reliance On-Site has commissioned specifically designed vehicles that can manoeuvre into tight places and economically deliver small amounts of fuel. These vehicles meet fuel users' needs in the areas of:

- Small bulk deliveries
- On-Site filling of vehicles, mobile plant and equipment
- On-Site filling of earth moving equipment
- On-Site filling of backup generators

If you would like more information on how Reliance On-Site can benefit your business please contact:

Brisbane 1800 816 972
Mackay 07 4955 8999
Townsville 07 4721 5588
Sunshine Coast 07 5441 7856

On-Site Refuelling

fuel delivered
anytime, anywhere

The Reliance Card is a convenient charge card that allows you to purchase fuels and shop items at any Reliance Petroleum or BP service station Australia wide.

If you would like a FREE Reliance Card information brochure please phone 1800 252 888.

your local BP people

Why use Reliance On-Site?

There are many businesses that choose to use **Reliance On-Site**. Typically, these businesses are concerned about safety and environment issues, difficulties refuelling, fuel contamination, theft and vandalism, administration and efficient utilisation of staff.

Increase Productivity

Your equipment can be refuelled after hours or when not in use, resulting in increased productivity. You do not need to wait around while refuelling takes place and therefore you don't need to take your equipment to fuelling points – the **Reliance On-Site** vehicle comes to you, almost anywhere you are.

Convenience

It is inconvenient and unproductive to move equipment to bulk fuel storage or send staff to pick up fuel. These activities all add to the total expense of your business.

Improve Control and Administration

Relying on drivers and operators to provide fuel consumption details can be challenging. It is not unusual for fuel receipts to be lost, making it difficult for your administration staff. It can become very costly trying to track down or verify receipts.

In addition, **Reliance On-Site** can help decrease fuel theft and credit card abuse.

Each **Reliance On-Site** truck carries a hand-help computer to keep an accurate record of fuel delivered. At each job site the operator enters the code number of each job and each piece of equipment, and the computer then automatically keeps track of the fuel delivered. You will receive a monthly statement detailing all your fuel consumption by equipment and location.

Product Range

Reliance Petroleum proudly distributes the full range of quality BP fuels and lubricants as well as the extensive range of Castrol lubricants. BP and Castrol are recognised around the world for their commitment to excellence, not only in their products, but also to their environmental and social responsibilities.

If you require larger fuel deliveries Reliance Petroleum is Australia's largest fuel and lubricants distributor with our largest tankers holding up to 55,000 litres of fuel. We also distribute bulk deliveries of BP and Castrol lubricants, greases, solvents, and detergents. Phone **1800 252 888** or visit reliancepetroleum.com.au to find a depot near you.

Reliance On-Site currently services the Mackay, Townsville, Sunshine Coast and Brisbane areas.

Prompt Delivery

We understand the costs associated with downtime of equipment waiting to be refuelled. We promise to deliver fuel to your site promptly to minimise downtime.

Excellent Customer Service

Reliance On-Site is a local service which delivers fuel directly into your equipment at your work site. This service is brought to you by the friendly team at Reliance Petroleum, which prides itself on great local customer service.

Savings

*Fuel is often one of the biggest expenses for a business. With **Reliance On-Site**, you will no longer incur the costs of bulk fuel storage. You pay only for the fuel you use and eliminate costs of holding fuel stock. You do not need your staff to be available to refuel so you can better utilise your resources.*

Safety and the Environment

*Fuel leaks, spills or contamination can be extremely costly for any company storing fuel at your work site. You no longer have responsibility for this when you use **Reliance On-Site**.*

It is safer for your people as they do not need to have any direct contact with the fuel, which means your environmental liability is reduced. Waste associated with leakage and contamination is eliminated.

Fuel guarantee

Product excellence comes in the form of BP fuels and lubricants - the cleanest fuels in Australia. All products meet stringent legislative requirements. In addition, all BP fuel products are covered by the BP Fuel Guarantee. Details of the BP Fuel Guarantee can be found on the BP website, www.bp.com.au.

Authorised Distributor of Castrol
